**ABOUT THE SUMMIT:**

The objective of the seminar is to take stock of the future directions and outlook of the Malaysian market amidst the global uncertainties arising from the US sub prime crisis and the ensuing credit crunch. The summit will be a meeting of minds among key players in the Malaysian market to feel the pulse of the market and the rhythm of development in Malaysia.

In addition, 2007 is 10 years after the Asian financial crisis. It will therefore be also timely to reflect on what we have learnt from the 1997 contagion and how far we have progressed to improve the regulatory and corporate governance environment.
